

# Milestone 5

---

# PredictProtein

- RostLab service for predicting several aspects of protein structure & function from sequence
- Graphical interface at <http://pp-dev.informatik.tu-muenchen.de:8080/>
- Current state: beta version, requiring savvy testing
- Meaning for you: **bonus points** for your feedback

# PredictProtein: what we expect

Your feedback on **usability** and **stability** of the service:

- Suggestions on functionality
- System's shortcomings in registration, job deletion, etc.
- Understanding of error messages
- Are you able to break the system?
- Or use testing recipes at – **we'll announce it on our website**
